

## Cigna Adds lora Primary Care to Medicare Advantage Network in Phoenix Area

October 20, 2021

NASHVILLE, Oct. 20, 2021 (GLOBE NEWSWIRE) -- Cigna Corporation, a global health services company, has added lora Primary Care providers to its Medicare Advantage (MA) network in Arizona's Maricopa County, which includes Phoenix.

"As Cigna continues to expand its Medicare Advantage network we are building partnerships with providers that share our focus on delivering affordable, high-quality care," said Dan Hoemke, president of Cigna's Medicare Advantage business in Arizona. "We have worked successfully with lora in other geographies and are very pleased to bring this relationship to our customers in the Phoenix area."

Customers in all of Cigna's MA plans in Maricopa County now have access to lora's practices, effective immediately. lora operates 12 primary care practices in Maricopa County. Cigna MA members can choose lora Primary Care in Denver, Charlotte, Houston, Tucson and now Phoenix.

lora specializes in primary care for older adults, making it easier for MA patients to access health care, whether in the doctor's office or in the comfort of their home. It provides its patients with longer appointments, in-person or virtual. Every patient works with a provider and has access to a robust team including a health coach, nurse and behavioral health specialist to help optimize health and wellness.

Cigna has grown its participating provider network by more than 25% in the last 18 months. More than 80% of Cigna's customers are in rewards and value-based arrangements. Cigna's value-based care agreement with lora increases coordination and emphasizes preventative care to drive improved health outcomes and greater patient satisfaction.

Tyler Jung, Chief Medical Officer, lora Health, said, "We're excited to expand our work together with Cigna as they have a similar passion for improving the lives of Medicare beneficiaries by focusing on the whole person. Our ability to offer lora's care to Cigna Medicare customers moves us one step further in our journey to transform health care."
